PROJECT DETAILS

Sagicor

This web application provides wide range of financial solutions to users in the Caribbean, notably Jamaica, Barbados, Trinidad, Tobago and United States. It's core products and services include life and health insurance, annuities, pension investment and administration, property and casualty insurance, and a suite of ancillary non-insurance financial products and services including banking and investment management. Sagicor's name comprises two root words: "sage" meaning wise, and "cor" derived from Latin meaning heart or judgement that reflects a new vision for financial advice and services. They help families by providing the assurance and peace of mind needed, especially during their most challenging times.
